HOW TO USE THE INDEX

This volume contains a complete index to all editorial material published in PLAYBOY from January 1969 through December 1973. The contents are in two sections:

Section 1 Reviews: This section references all items reviewed in *Playboy After Hours*. Reference is by title in listing books, recordings, movies and theatrical performances; by name of establishment in listing restaurants, resorts and night clubs; by name for authors, performers or other individuals connected with the review item, when appropriate. Subject listings include central figures in biographical works and geographical locations for restaurants, resorts and night clubs.

The last line of each Reviews entry cites the type of work, performance or establishment being reviewed, issue date and page number.

Section 2 Composite Index: The Composite Index references all fiction, nonfiction, pictorials, service features, regular departments and reader-related features such as *Dear Playboy*, *The Playboy Advisor* and *The Playboy Forum*. References appearing in this section are listed by title, contributor, name of individual or institution receiving significant attention in the published item, and subject classification according to PLAYBOY's standard subject list.

Title entries are arranged alphabetically by the first significant word (disregarding A, An and The). Titles beginning with a numeral (*1970 Playboy All-Stars*) are listed as though the numeral were spelled out (*Nineteen Seventy Playboy All-Stars*). Each title entry cites the principal contributor and a brief description of the referenced item.

Contributor entries are arranged alphabetically by the last name of the contributor, followed by a parenthetical description of the contributor's role (author, illustrator, photographer). A contributor may appear more than once if his contribution to the magazine has been in more than one capacity (e.g., author and illustrator).

Subject entries cite the item's title and the author of by-lined material. Individuals, such as photo subjects and personalities, are listed by last name; localities are listed by city; institutions and events are listed in the manner in which they are discussed in the published item. To avoid repetition, when a serialized story appears under a subject entry, only the first part of the series is referenced.

The last line of each entry includes the issue date and page number of publication of the item, as well as magazine department (article, fiction, *Dear Playboy*, etc.).

All entries in both the Composite Index and the Reviews section are alphabetically listed. When more than one reference is listed under one heading, the listings are arranged in chronological order, the most recent appearing first.
